

Productions Presents:

NASCAR Speed Dog Show

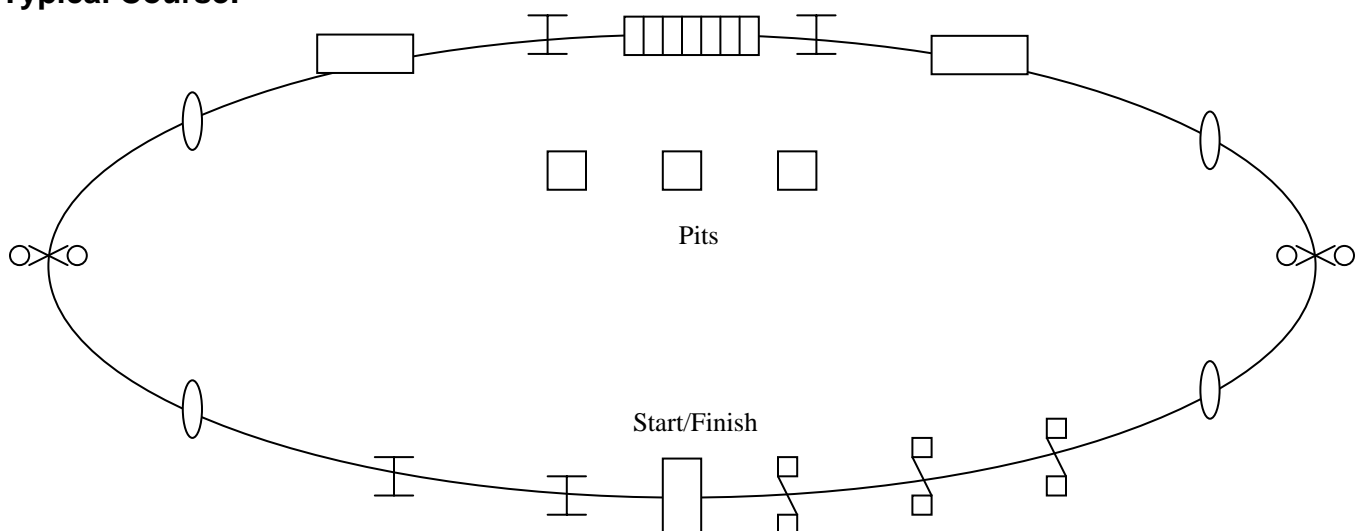

About Us: The Classic K-9 Show is in its 18th year of “live” show production. Comprised of a wide variety of hilarious dog sport competitions, the Classic K-9 Show is choreographed to music and mixed with comedy and special effects. Our main event, Oval Track Racing, has been billed as the most exciting canine competition for audiences of all ages. Often referred to by the spectators as “Doggie NASCAR” this event has inspired us to transform the show into the newly found auto-racing format known as The Speed Dog Show.

The Show: “The Speed Dog Show” is an awesome in-line racing event performed in an arena environment measuring approximately 50 X 100 ft. or larger. Fifteen or so of the top dog trainers and canine all-stars from across America compete in exciting agility races. An amazing high-speed obstacle course is constructed using tunnels, hurdles, scaling walls, and more.

The show begins with a qualifying lap for each racer, establishing the top three fastest times. Then, the announcer barks...“Gentlemen start your engines!” All three teams simultaneously approach the start/finish line. The green flag drops as the crowd roars. During this multiple lap race event there are mandatory pit stops for each team. Their pit crews must change collars and other gear. The race continues on to the finish line, bringing the champion to victory lane!

Typical Course:
